**IS IT A METH HOUSE?**

FOR YOUR OWN PEACE OF MIND TEST BEFORE MAKING A COMMITMENT  
TO BUY, SELL, RENT OR LIST.

We have found a manufacturer of a quick, simple test for amphetamine and methamphetamine residue that is used by law enforcement agencies. We have arranged to buy these tests in bulk and make them available to real estate professionals for about 25% of the advertised retail price. We offer two test kits in each package for \$11 tax and postage included.

For your own peace of mind, test it yourself. This ten second meth residue swab test (used by the DEA) reveals minute particles of amphetamine and methamphetamine left on wall, floors or other surfaces where meth has been manufactured or used.
